TECHNICAL SKILLS

Frontend

HTML5, CSS, JavaScript, TypeScript, React

Interface and State

Component architecture, browser routing, form validation, persisted state, loading states, error states and responsive data views

Backend and Data

REST APIs, Express, Python, Flask, PostgreSQL and SQLite

Testing and Delivery

Vitest, Playwright, pytest, API testing, Vite and Vercel

EDUCATION

2025 TO 2026

Certificate of Advanced Studies in Web Development

HE-Arc University of Applied Sciences
Neuchâtel, Switzerland

2023 TO 2024

Meta Full-Stack Engineer Certificate

Coursera, authorised by Meta

LANGUAGES

French	Native or bilingual
English	Native or bilingual
German	Limited working proficiency

PROFILE

Frontend-oriented full-stack engineer based in Vaud, Switzerland. I work across interfaces, APIs and databases, with a preference for frontend engineering, responsive layouts, interaction patterns and data-heavy products.

EXPERIENCE

JUNE 2025 TO SEPTEMBER 2025

Web Developer Intern

Gaea21 NGO · Geneva, Switzerland

- Contributed to EcoMinds, a sustainability and community-engagement project
- Developed responsive React layouts and reusable components
- Improved semantic HTML, keyboard use, SEO and performance
- Worked within an existing codebase and team process

SELECTED PROJECTS

Alpine ClientFlow

FRONTEND

Client-onboarding CRM with role-based workspaces, six-step onboarding, compliance reviews and browser persistence.

React · TypeScript · TanStack Query · Zod · IndexedDB

VeriLot

FULL-STACK
